# Director's Quote

“Many people from India have already experienced UK life. Now they see life in a bigger view and to most of them, the UK is a second home or a frequent business destination. Great transformations happen in great places and Britain is one of such places. We can help you to win such a life. Stick with us.”

*-Enosh Elizabeth*

(Founder of Brit Leelaa)

“If your goal is to go to UK, work, study or to gain life experiences in UK, then we are the right people for you”

**Human Life is a one time opportunity on earth. The core satisfaction of it comes from various life experiences. Some of these life experiences may become your best experiences and may help you lead your life at an entirely different level than your fellow human beings. They make you feel great. That's when your Eye sees life through the London Eye.**

**British life experience is one such experience. I have been through it.**

**Enosh Elizabeth (Founder of Brit Leelaa)**

**"If your goal is to go to UK, work, study or to gain life experiences in UK, then we are the right people for you"**

## Migration Concept

“You see the birds in the picture? They always move. It is not because they are incapable of life at one location, but because they see life at various next levels. They know that life is beautiful when explored. They are just birds, so small when compared to humans. How much more should humans explore life? I leave you with that imagination in your thoughts.....”

## Who are we?

We are specialists in UK immigration matters. We can help you make your UK dream come true. Whether it is for Study, Work, Business, Tourism or Settlement, we offer the one stop expert solution for your UK needs.

Our team consists of highly qualified and widely experienced professionals who are British Citizens. We are connected to people and businesses across the UK and India.

BRIT LEELAA is the trade name we use for our UK business vertical. The name has come up with an idea of making people's British dream come true, BRIT being British and LEELAA meaning Dream.

“If your goal is to go to UK, work, study or to gain life experiences in UK, then we are the right people for you”

## People go to UK generally and most commonly as

### STUDENTS

UK Education has proved to be great for so many years now. Whether it is for a short-term course or for a full-time regular study or for research -- whatever you want to do, it stands out to be the best.

We have flexible ways of setting you up for the suitable study. We have seen students from all over the world who have come to the UK and we have helped them with the next things they needed in the UK, in addition to what we have offered to them before they moved into the UK.

Tier 4 visas are the most common visas for students. There are other study visas that are designed for special purposes, however, we will advise you the best at the time of your discussion with us. **CONTACT US TODAY to KNOW MORE.**

We recruit students from all educational backgrounds. We also recruit researchers to pursue their research in the UK universities. We have offered complete expert solutions for our previous students.

**After the course completion, students can apply for a Post Study Work Visa for 2 years. We can help you with further extension of visas as suited.**

## OTHER ROUTES

- Tier 2 Work Permits (Skilled Worker Routes)
- Tier 1 Endorsement seekers and Investors
- Business Representatives and Visitors

It is better if you can discuss your eligibility about these visas with us personally rather than just read through here, however, more information is available online at UKVI website.

### THINGS YOU SHOULD KNOW

UK qualifications are recognised worldwide. They will make you sell yourself in a better way in the job or business market anywhere in the world. Your essential skills to sell yourself such as - English language, Conversational Pitch, Global Acumen, Confidence and Attitude along with your Subject Knowledge will be furnished to global standard. Wisdom sells better than Knowledge, REMEMBER !!

**“YOU can become a NEW YOU with GREAT ADD ONS.”**

**“There are things in life that come by chance at a given time and you have to choose them without second thought because when the time passes by, you may lose these things. Going to the UK is like that. Staying in countries like the UK has helped many of us in many ways.”**

**“If your goal is to go to UK, work, study or to gain life experiences in UK, then we are the right people for you”**

**MBA and PGCE** are the most common courses we have suggested in the past, based on our UK market research. The traditional progression after PGCE would be to become a teacher in UK/International schools, and with an MBA it would be to start as an Entrepreneur in the UK and India. These routes will make you easily compliant with the UK law over the short period of your entry clearance. MBA graduates usually start as consultants offering their services and knowledge for a fee, however, our previous students excelled upto building great businesses in the UK and India. It is easy to hit Tier 1 or Tier 2 visas on these routes.

Many courses will allow you to do a paid work placement while pursuing your course. After PGCE, UK based supply teachers usually earn at least GBP 150.00 per day. That's approximately INR 300,000 per month after tax. Doctors, IT contractors and Legal Consultants earn up to GBP 1000 per day.

There is a huge demand for Indian skilled professionals in UK Education, IT, Medical and Legal Sectors irrespective of UK work visa challenges. We can help you here.

The PG courses are generally 12 to 14 months long and your Tier 4 study visas are provided for 1 year 4 months usually, after which you can extend your UK stay by switching your visa to another appropriate visa category inside UK, based on your work or business opportunity, most commonly into Tier 1 or Tier 2 visa routes.

**We can help you with all these things as you progress with us.**

"If your goal is to go to UK, work, study or to gain life experiences in UK, then we are the right people for you"

Our placements are not limited to PGCE and MBA. We recruit for all courses ranging from High School to Post Graduate level. It is better to talk to us about your interests and goals. We will then interview you and match you with the best in the UK. There is no age barrier. Student visa holders can work up to 20 hours per week all over the UK. We can help you with all you need in regards to your 20 hours work and most students work within Brit-Leelaa only.

Our most trusted strategic plan in the last three years was to place our candidates in Cardiff first and then make them experience the rest of the UK through work placements all over the UK. Most of our candidates work in London and Cardiff, however we cover all of the UK.
